The term “Tobacco Products” is defined at [tobacco at ups.com](https://www.ups.com/tobacco). Shippers should consult [tobacco at ups.com](https://www.ups.com/tobacco) for the current definition of tobacco products, as the definition may change

periodically. At present, and without limiting the complete definition posted at [tobacco at ups.com](https://www.ups.com/tobacco), the term “Tobacco Products” includes any product made or derived from tobacco that is intended for human consumption, including any component, part or accessory of a tobacco product; the term includes, without limitation, e-cigarettes, e-hookah, e-cigars, vape pens, advanced refillable personal vaporizers and electronic pipes.

UPS prohibits the shipment of Cigarettes or Little Cigars (as those terms are defined at [tobacco at ups.com](https://www.ups.com/tobacco)) to consumers. UPS also prohibits the shipment of all Vaping Products (as the term is defined at [tobacco at ups.com](https://www.ups.com/tobacco)) throughout its U.S. domestic network, including import and export, regardless of nicotine content and destination state. To make other Tobacco Product Shipments, the shipper must sign, agree to and comply with the provisions set forth in an approved UPS agreement for the transportation of Tobacco Products. All shipments, including shipments containing Tobacco Products, will be accepted for transportation only according to the “UPS Tariff/Terms and Conditions of Service – United States” available at [ups.com/assets/resources/webcontent/en_US/terms_service_us.pdf](https://www.ups.com/assets/resources/webcontent/en_US/terms_service_us.pdf).

Determine the Weight and Size

PACKAGE

For All Domestic and International Shipments

The Determine the Weight and Size information on this page and the next page are for package shipments only. For information on how to determine the weight and size for UPS® Simple Rate shipments, refer to pages 46-47.

Shipping rates are based on package weight and size (explained below and on the following page) and origin-to-destination distance (refer to pages 10-11 for Alaska Domestic, pages 28-29 for Hawaii Domestic and page 48 for Export).

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How to determine billable weight:

1. Determine actual weight.

Actual weight is the package weight rounded up to the next whole pound.

Use a scale to determine the weight of the package. Round any fraction of a pound to the next whole pound for UPS Express® Envelopes (letters) over eight ounces and all other packages.

2. Determine dimensional weight.

Dimensional weight reflects package density, which is the amount of space a package occupies in relation to its actual weight. Dimensional weight may apply to all UPS domestic and international package services.

Determine the package dimensions in inches. For each dimension, measure at the longest point, rounding each measurement to the nearest whole number (for example, 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2). The minimum measurement for each dimension is 1 inch.

Multiply the package length by the width by the height. The result is the cubic size in inches.

For domestic shipments:

Divide the cubic size in inches by 166 to determine dimensional weight in pounds. Increase any fraction to the next whole pound.

For international shipments:

For export shipments, divide the cubic size in inches by 139 to determine the dimensional weight. Increase any fraction to the next whole pound.

3. Determine billable weight.

Compare the package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate.

For multiple-package shipments eligible for shipment pricing, total the billable weight of all packages in the shipment.

Notes:

- Shipment pricing is not available for a service unless specifically noted.
- For information on how to determine the rate applicable to UPS® Simple Rate shipments, see pages 46-47 and visit [ups.com/simplerate](https://www.ups.com/simplerate).

PACKAGE

For All Domestic and International Shipments (continued)

Additional Information on Determining Weight and Size

– **Letter rates** apply for domestic and international documents, correspondence and electronic media shipments that do not exceed eight ounces sent in a UPS Express® Envelope. Domestic Letters greater than eight ounces will be billed by weight (rounded up to the next whole pound). Export Letters greater than eight ounces and up to two pounds will be billed at UPS Express® Pak rates. Export Letters greater than two pounds will be billed by weight (rounded up to the next whole pound).

– **UPS Express Pak rates** apply for export shipments that weigh two pounds or less, do not exceed \$100.00 in customs value and UPS Express Pak is selected at the time of shipping.

– **Irregularly Shaped Packages:** If the package has a bulge or is irregularly shaped, measure the length, width and height of the package at its extreme points, which may include the bulge or irregular aspects of the package.

Treat the irregularly shaped package as if it were in a regular rectangular box. Measure the length, width and height of the package from its extreme points.

– Items Shipped in Bags:

Shape – When multiple items are shipped in a flexible container (e.g., burlap or plastic bag), the package measurements will be determined when the exterior is at rest. As this shape will differ from placement to placement, cubic size or package measurements will be made at the sole discretion of UPS.

Tails – A tail on an item shipped in a bag should be measured for the amount of space it takes up in a reasonably compressed fashion. Any tail that is created by placing an item in a bag must be compressed and taped to the body of the item.

– Packages that exceed UPS weight and size limits are not accepted for transportation. If found in the UPS system, they are subject to an Over Maximum Limits charge. UPS reserves the right in its sole and unlimited discretion to return such packages to the shipper at the shipper's expense. Refer to page 76 for more information.

– A **Large Package Surcharge** may apply to domestic and international shipments.

For domestic shipments, a package is considered a "Large Package" when its length (longest side of the package) plus girth $[(2 \times \text{width}) + (2 \times \text{height})]$ combined exceeds 130 inches or its length exceeds 96 inches.

For international shipments, a package is considered a "Large Package" when its length (longest side of the package) plus girth $[(2 \times \text{width}) + (2 \times \text{height})]$ combined exceeds 130 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. An Additional Handling charge will not be assessed when a Large Package Surcharge is applied.

– Shippers are responsible for providing accurate and complete shipment information on the shipping document or in the automated processing system used, including service selected, number, weight and dimensions of packages. UPS reserves the right to audit any package and/or invoice to verify service selection, package dimensions or weight and applicability of any charges. As part of that audit, UPS may weigh and measure any package tendered to UPS using any method UPS deems appropriate including, but not limited to, multi-dimensional measuring devices. If any aspect of the shipment information provided by the shipper is incomplete or incorrect as determined by UPS in its sole and unlimited discretion, UPS may in its sole and unlimited discretion adjust charges at any time.

Follow the instructions on this page and the previous page to determine the billable weight for your package shipments.

Notes:

- Size limits indicated by a box manufacturer may not reflect exterior dimensions of a package, including where a package may have bulges or otherwise may not be uniform across each plane, and should not be used as a substitute for actual length, width and height measurements in determining dimensional weight.
- Improper packaging may result in the alteration of a package's dimensions during transit which can affect the package's dimensional weight and result in a shipping charge correction.

WorldShip®, ups.com shipping, UPS CampusShip®, UPS Ready® solutions and applications available in the UPS Developer Kit will automatically calculate dimensional weight when you enter the package weight and dimensions.

Domestic and Export

Determine the Rate

All UPS rates are per package for domestic services and per shipment for international services, unless otherwise noted. The following information applies to the rate charts that appear on pages 12-45 for domestic and pages 57-67 for export. (Refer to pages 46-47 for UPS® Simple Rate shipments.)

Packages processed for shipment or tendered to UPS on Sundays, holidays or other non-operating days may in UPS's discretion be billed at the UPS rates in effect on the next UPS operating day.

Domestic and Export

- Visit [ups.com](https://www.ups.com) for guarantee details, service availability, delivery time commitments or to request a pickup.
- Dimensional weight may apply. Refer to pages 6-7 for more information.
- For large or heavy packages, additional charges may apply. Refer to pages 6-7 for more information.
- A Heavy Package sticker is required for any package weighing more than 70 pounds.
- Rates do not include a fuel surcharge. For current fuel surcharge rates, visit [ups.com](https://www.ups.com). Fuel surcharges do not apply to UPS Simple Rate shipments.

Domestic

- For each UPS Next Day Air® Early package with a weight of more than 150 pounds, multiply the weight by the price per pound and add \$30.00. For all other UPS domestic services with a weight of more than 150 pounds, multiply the weight by the price per pound.
- The Letter rate applies only to documents, correspondence and electronic media shipments that do not exceed eight ounces sent in a UPS Express® Envelope. UPS Express Envelopes exceeding eight ounces are subject to the rate corresponding to the weight of the UPS Express Envelope. UPS Express Envelopes are not recommended for shipments of electronic media containing sensitive personal information.

Export

- Delivery times may vary by origin and destination postal code.
- The rates shown on pages 57-67 are for shipments originating in the U.S. (export) and billed to a U.S. UPS account number.
- Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next listed weight.

- To determine the rate for international multiple-package shipments, refer to page 56 for export.
- UPS Express® Pak rates will apply to Letters weighing more than eight ounces, but less than two pounds. UPS Express Pak rates also apply when all the following are met:
 - The shipment weighs two pounds or less. Shipments above two pounds are rated by weight
 - UPS Express Pak is selected at the time of shipping
 - The customs value of the shipment is less than \$100.00
- The Letter rate applies only to documents, correspondence and electronic media shipments of no commercial value that do not exceed eight ounces sent in a UPS Express Envelope. UPS Express Envelopes containing items other than those listed above or exceeding eight ounces up to two pounds are subject to the UPS Express Pak rate. Shipments greater than two pounds are subject to the rate corresponding to the weight. UPS Express Envelopes are not recommended for shipments of electronic media containing sensitive personal information.

Important: In addition to determining the billable weight of a package, the destination zone is also needed to determine the rate for each domestic service option.

Notes:

- WorldShip® or UPS CampusShip® shipping systems, [ups.com](https://www.ups.com) shipping, the UPS Developer Kit or a UPS Ready® solution will automatically determine the zone for you.
- Determine the zone for your shipment from the appropriate charts.
- Service to and from points in Zone 26 may require one or more additional days.
- A dash (–) means service is not available.

Domestic UPS® Simple Rate

Preparing a UPS Simple Rate Shipment

Notes:

- Size limits indicated by a box manufacturer may not reflect exterior dimensions of a package and should not be used as a substitute for actual length, width and height measurements in determining cubic inches.
- Packaging must meet all standard UPS packaging guidelines. Refer to page 7 for applicable information on measuring the length, width and height of irregularly shaped packages and items shipped in bags.
- UPS Simple Rate is limited to single-piece, prepaid, small package shipments. UPS Returns® Service options for UPS Simple Rate are limited to UPS Print Return Label Service only.
- UPS Simple Rate is not available for use with UPS Hundredweight Service®, Hazardous Materials shipments, third-party payer or freight collect shipments.
- UPS Express® packaging can be used with UPS Simple Rate for UPS Next Day Air Saver and UPS 2nd Day Air shipments.

UPS Simple Rate offers flat rate pricing between the U.S. 50 states. The applicable rate is determined by package size and service option. Certain standard surcharges do not apply.

Maximum Weight and Size

The maximum actual weight per UPS Simple Rate package is 50 pounds. The maximum size per UPS Simple Rate package is 1,728 cubic inches.

Service Options

Choose from three service options: UPS Next Day Air Saver®, UPS 2nd Day Air® and UPS® Ground. UPS 3 Day Select® is not available for UPS Simple Rate shipments originating in or destined to Alaska and Hawaii.

Determining the UPS Simple Rate Package Size

Follow the steps below to determine the package's UPS Simple Rate size.

1. Package the item in a box or poly mailer.

UPS Simple Rate is designed to be used with the shipper's own box or poly mailer.

2. Measure the package dimensions in inches.

For each dimension, measure at the longest point, rounding each measurement to the nearest whole number (for example, 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2). The minimum measurement for each dimension is 1 inch.

3. Calculate the package size in cubic inches.

Multiply the package length (longest side of the package) by the width by the height. The result is the size in cubic inches.

4. Determine the package's UPS Simple Rate size.

Determine the UPS Simple Rate size, according to the package's cubic size in inches, using the chart below.

Shipping a UPS Simple Rate Package

Alaska and Hawaii – Export Shipment Pricing

UPS Worldwide Express Plus®, UPS Worldwide Express®, UPS Worldwide Saver® and UPS Worldwide Expedited®

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. The shipment consists of multiple packages, using the same service, shipped on the same day to a single consignee.
2. For shipments processed with WorldShip® or UPS CampusShip® shipping systems, [ups.com](https://www.ups.com) shipping, the UPS Developer Kit or a UPS Ready® solution that supports full international service or a UPS Worldwide Services Waybill. **Note:** For shipments processed with UPS Developer Kit – Shipping API, in order to obtain the best rate, customers are responsible for aggregating shipments for shipment pricing prior to requesting labels (UPS Developer Kit – Shipping API does not run End of Day).

Rates

Rates are based on the total billable weight of all packages in the shipment. Compare each package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate. For multiple-package shipments, total the billable weight of all packages in the shipment. Refer to pages 6-7 for instructions on calculating dimensional and billable weight.

If the payer of the shipping charges is located in the origin country, the

shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

For shipments weighing 150 pounds or less, locate the rate for the total weight of the shipment on the appropriate rate chart.

For shipments weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound) by the appropriate price per pound. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

Customs Brokerage

For UPS Worldwide Express Plus, UPS Worldwide Express, UPS Worldwide Saver and UPS Worldwide Expedited rates include routine, in-house customs clearance by UPS Supply Chain Solutions®. Additional charges will apply if customs clearance is performed by customs brokerage offices other than those designated by UPS for clearing the services listed above.

Customs clearance for the services listed is provided by the UPS Supply Chain Solutions customs brokerage offices designated by UPS for handling package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of packages and freight.
